Quality Flooring
Solutions!

CFA is not just another flooring company.

We have considerable experience in international sourcing and procuring; our flooring is carefully selected and developed. As a boutique family business, we are flexible and able to introduce innovative products, keeping ahead of the competition.

Designers and architects are concerned about the bottom line but equally, how their creative vision can be realised. At CFA we offer the highest quality products, whether tailor-made or off the shelf, our flooring ranges meet the aesthetic and functional needs of all our customers. CFA can deliver fast and competitively with warehousing in both NSW and SA.

Vaucluse
Rigid Board

iLaminate 8mm

iLaminate 12mm

CFA Vaucluse Rigid Board is the latest in new generation flooring technology.

We use the latest in colourfast technology and deep embossing to give you a natural timber look. They also use the latest acoustic backing for excellent sound absorption.

CFA 8mm and 12mm iLaminate flooring utilises high-density fibre (HDF) core board and the top layer has a protective scratch resistant layer, giving your laminate floors the highest level of protection against everyday living.

iLaminate floors are easy for the DIY handyman and fast laying for installers saving you time and money.

The latest colourfast technology also gives the flooring protection from the harsh Australian sun.
